

Please refer to MB Docket No. 04-233. I have heard about the Low Power FM stations you are considering to put into effect. If LPFM is given air priority over regular FM stations, Christian radio will be affected and possibly forced off the air.

My family and I faithfully and regularly listen to Christian radio, K-LOVE, to be exact. We listen on 96.9, 104.3 and 102.3 FM in our area. I know that if Christian radio were taken off the air, there would be a HUGE void in my life. Music is such an inspiration and encouragement to me in my daily life. I'm not sure what would replace Christian radio, but I am SURE that it would not be as beneficial and uplifting to me as K-LOVE.

Thank you for your consideration in this matter. I will be praying you make the right decision. God bless you.
